# INTRODUCTION

This report is a profile of income and poverty level characteristics from the 1980 Census of Population and Housing. It is volume V of a series of Municipal Profiles published by the New Jersey State Data Center (NJSDC). Previous reports showed demographic and housing characteristics from complete count data of the 1980 Census from Summary Tape File 1. This report and Profile IV, Labor Force and Employment Characteristics, have been based on the 1980 Census sample data tabulated from the "long form" of the census questionnaire. The income and poverty data in this report were tabulated from Summary Tape File 3A. This publication was designed and written by Charles Crowley, Demographer, NJSDC.

A one-page profile consisting of eleven tables is shown for the State of New Jersey, New Jersey counties and minor civil divisions. The first 7 tables show census income statistics for households, families, and persons in calendar year 1979. Distributions, medians, and means are reported for each area. Per capita income is shown for all persons and the non-inmate population. Mean household income by tenure and type of income is shown in tables 4 and 6 respectively. Family income by race or Spanish Origin and by number of workers is found in tables 5 and 7.

Tables 8 and 9 report poverty status by race and Spanish Origin, by age, and by family type. Table 10 shows poverty figures by age of householder for family and nonfamily households at poverty level, 100 to 124 percent of poverty level, and 125 percent or more of poverty level. Table 11, the last table in the profile, shows the poverty rates for all persons and families in the profiled area.

Additional reports have been published from the 1980 census data by the NJSDC. To obtain census information contact the county planning board for the geographic area of interest, the New Jersey State Library, or the Newark Public Library. These agencies are members of the NJSDC census data distribution network.

A full discussion of the census sample design and all items included on STF3 can be found in the U. S. Bureau of the Census publication, "Census of Population and Housing, 1980, Summary Tape File 3 Technical Documentation." Questions about this report should be addressed to: New Jersey State Data Center, Division of Planning and Research, Department of Labor, CN 388, Trenton, NJ 08625-0388.
